

## Coaching course co-ordinator

Swiss Netball are looking for an enthusiastic coaching course co-ordinator to lead the finalisation and delivery of our advanced level coaching course.

Swiss Netball have been working on an advanced level coaching course which has been written in English with the assistance of England Netball Coaches. In order to be recognised as an official course for children and young people in Switzerland, the course needs to meet the requirements of the Swiss Federal program "Jeunesse et Sport" (J+S). The whole course needs to be written and delivered in French and English.

The tasks of the coaching course co-ordinator will be as follows

1. Finalise the course by adding the compulsory J+S modules not yet included in the course. The J+S modules are available in FR and DE and need to be translated into EN
2. Manage a team of volunteers or paid staff to translate the English modules into FR and ideally, into DE.
3. Organise, in liaison with the Swiss Netball assigned committee member, the delivery of the course to candidates

This is an excellent opportunity to get an in-depth knowledge of a federal recognised coaching course, to work alongside two experienced England Netball coaches and to create ties with other sporting bodies who have offered their assistance to Swiss Netball.

The ideal candidate for this voluntary role is an enthusiastic, organised and resourceful individual with a passion for netball. FR or DE language, some coaching and prior experience with J+S is a bonus

Timeline:

- Expected delivery of the written material: **December 2020**
- Expected delivery of the first coaching course: **February 2021**
